

# Day 1

- Start @ Top Camp**  
601455 E  
5477995 N
- Walk to Stumpy's Campsite Number 4**  
604309 E  
5473054 N
- Drive to Mt William Walk (return walk to summit)**  
601687 E  
5470656 N

# Day 2

Basemaps

Layers

Start @ Stumpys Campsite Number 4

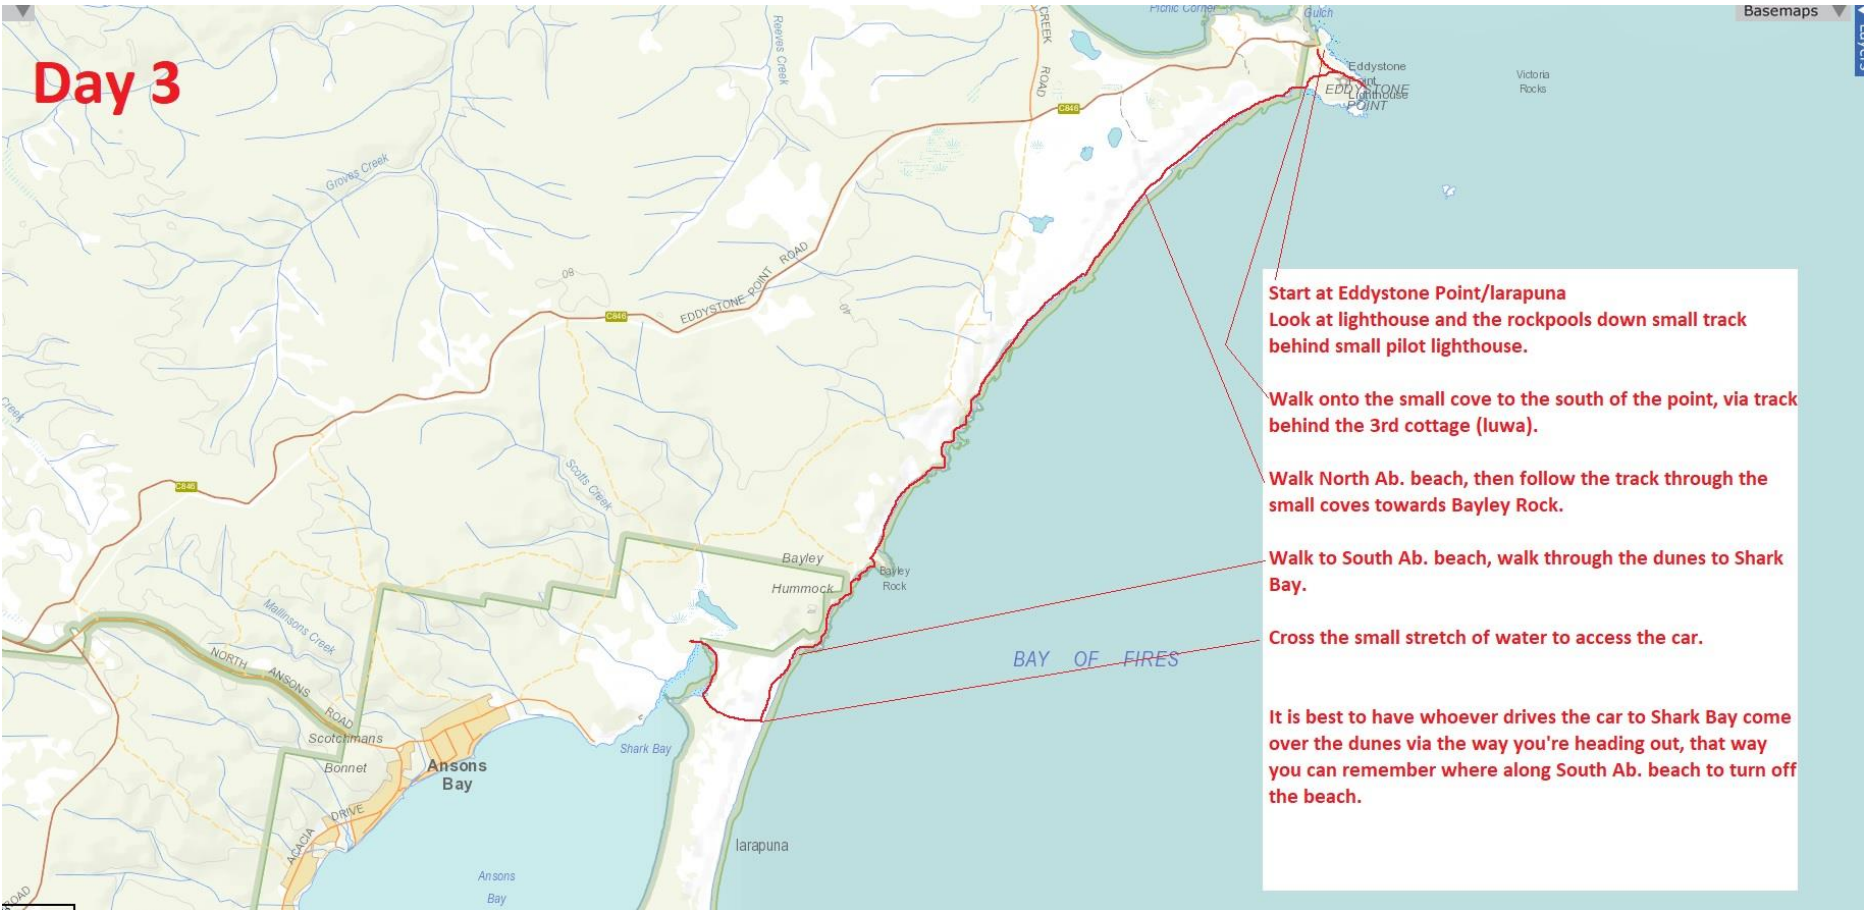

Aboriginal midden. Walk on rocks only.

Here is an old 4WD track leading back to the van, one guide leaves here.

Small inland track. Easier than going around the coast. Look for a star picket a few hundred metres north of the headland on the beach (often footprints in the sand leading to it).

Walk to Deep Creek. END.

# Day 3

**Start at Eddystone Point/Irapuna**  
Look at lighthouse and the rockpools down small track behind small pilot lighthouse.

Walk onto the small cove to the south of the point, via track behind the 3rd cottage (luwa).

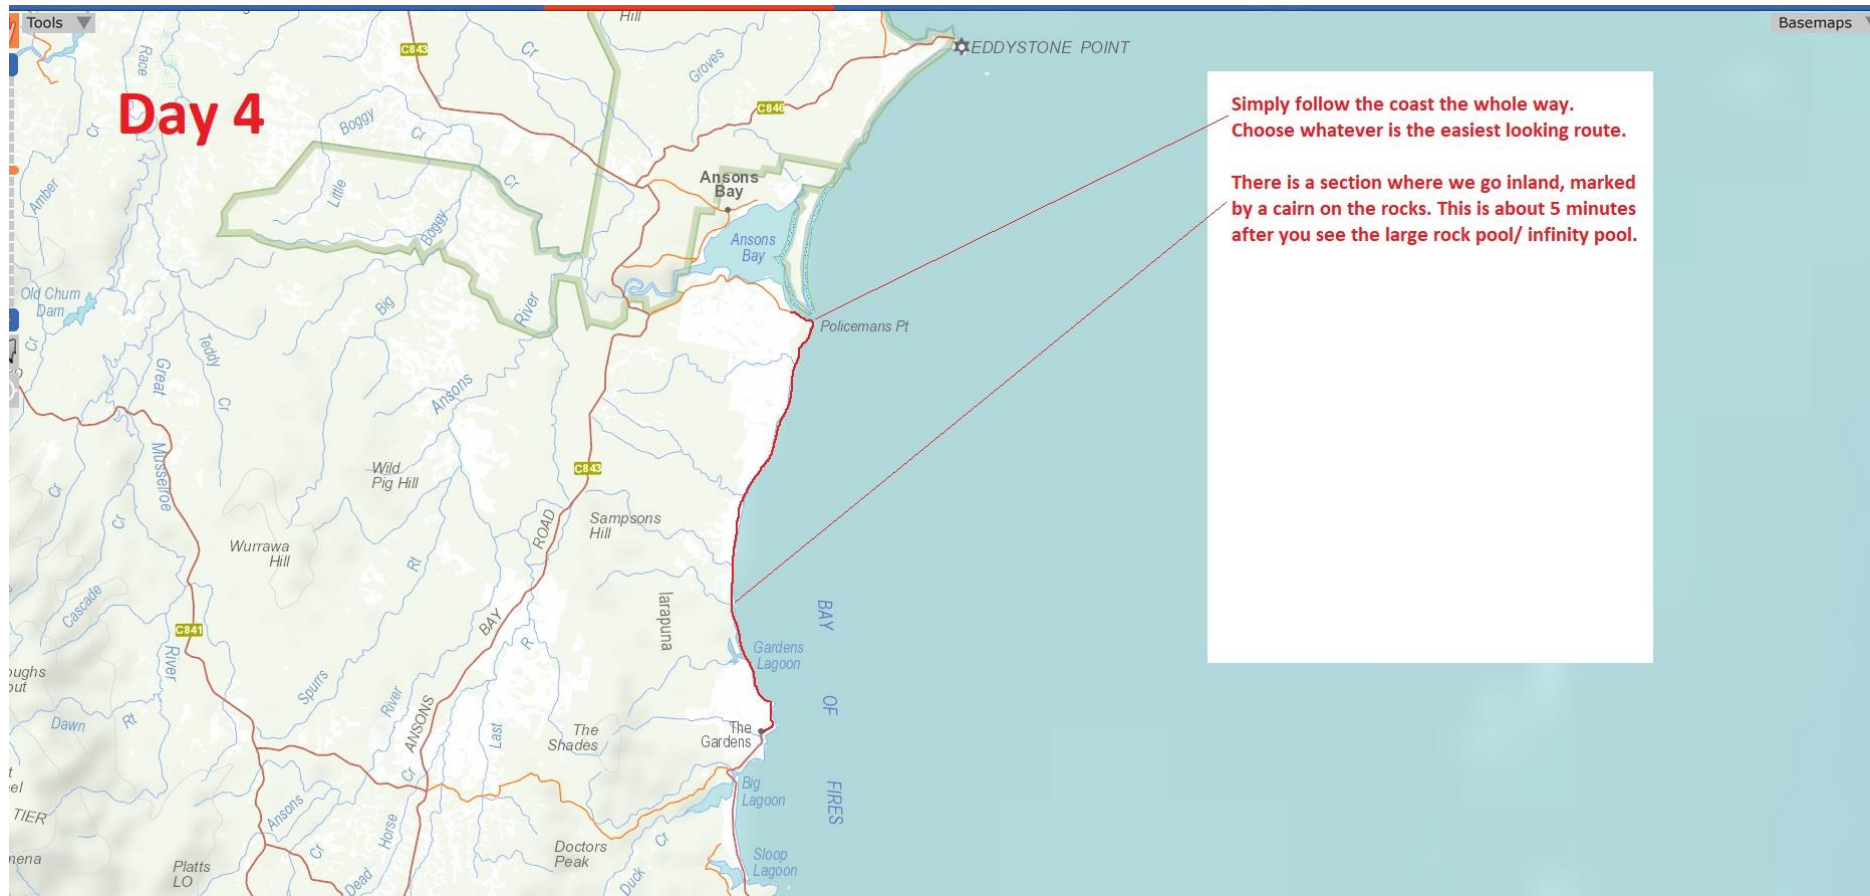

Walk North Ab. beach, then follow the track through the small coves towards Bayley Rock.

Walk to South Ab. beach, walk through the dunes to Shark Bay.

Cross the small stretch of water to access the car.

It is best to have whoever drives the car to Shark Bay come over the dunes via the way you're heading out, that way you can remember where along South Ab. beach to turn off the beach.

# Day 4

Simply follow the coast the whole way.  
Choose whatever is the easiest looking route.

There is a section where we go inland, marked  
by a cairn on the rocks. This is about 5 minutes  
after you see the large rock pool/ infinity pool.
